

New Cassel (Jennifer LaPoma): On 4/12, the second day of trial, New York State and the Frost St parties settled in court. ORC has informed ERRD that Frost St Parties were going to pay \$700,000 for NYSDEC's OU3 in exchange for a covenant not to sue for NYSDEC's OU3 and for Natural Resource Damages. The case will be taken off the court's docket, but New York State will be free to bring another action for cost recovery for NYSDEC's OU2 (Frost St groundwater in the New Cassel Industrial Area) including EPA's 10% cost share if we were to seek it.

OU1 RD: ORC and ERRD including Nicki DiForte met with OU1 PRPs on 3/23 to discuss the OU1 RD Settlement Agreement, SOW and the PDIWP. A tolling agreement with copies of the OU1 RD aforementioned documents were be provided to the PRPs after the meeting.

PRPs, were to provide a signed tolling agreement to EPA by 4/11/16. ORC has granted a 30 day extension for a response to the tolling agreement and has informed PRPs that March 23rd would still be the effective date of the tolling agreement unless another data is agreed upon. One comprehensive comment set on the Settlement Agreement and SOW to EPA by 5/2/16. EPA informed OU1 PRPs that the PDIWP should be reviewed for fatal flaw only. RPM provided dates in April that she can be available to discuss the SOW and PDIWP with OU1 PRP technical contractors.
